DETAILED ACTION

Amendment Entry & Claim Status

The amendment filed on November 28, 2004 has been acknowledged and entered.

Claims 1-17, 26 are pending.

Withdrawn Rejection(s)

Rejections under 102 and 103 are withdrawn herein.

Rejection under 112, 2nd paragraph is withdrawn herein.

New grounds of Rejection(s)

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-17 and 26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The present specification fails to disclose the "unconjugated" large polycation as recited in the claims. The claims now recites adding an "unconjugated" large polycation in a sample to decrease interferences. However, the present specification fails to teach an "unconjugated" polycation. The present specification only teaches a large polycation.

Art Unit: 1641

It does not teach an "unconjugated" large polycation. Thus, one of ordinary skills in the art would not assume that such large polycation is an "unconjugated" large polycation. Description of an "unconjugated" large polycation is required in the specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Siedel et al. (US 5,288,606).

Siedel teaches a process for determining of fructosamine in blood or samples derived from blood whereby non-specific reducing acting and/or turbidity-causing sample components are removed by adding a cationic detergent. Such detergents are linear or branched-chain alkyl or alkylaryl alcohol-polyglycol ethers with 8-20 carbon atoms in the alcohol moiety with 4-15 glycol units per molecule. Cationic detergents are unconjugated polycation. The assay is performed on a solid carrier. (see col. 6, line 18- col. 7, line 31).

Response to Arguments

Applicant's arguments with respect to claims 1-17 and 26 have been considered but are moot in view of the new ground(s) of rejection.

Claims 2-6, 8 are objected for they are dependent from rejected claims.

Claims 9-17, 26 are free of prior arts.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
